Visie op het vak:

English is an important world language and a lingua franca. It is the language of instruction in English class, building on students' knowledge of other languages and learning processes. As a language-friendly school, DENISE encourages students to use their mother tongue in their language learning and celebrate diversity of accents. The English department maintains continuity and alignment across the various curricula and diploma programmes (Language, IMYC, Career, MAVO, HAVO, IB). The study of English language and literature prepares students to be critical, open-minded thinkers and resilient problem solvers so they can function as responsible global citizens.
