K/5: Luister- en kijkvaardigheid	SE		V/5: Vaardigheden in samenhang	SE	
K/6: Gespreksvaardigheid	SE				

### *Visie op het vak:*

As a Dutch international school, DENISE students come from different educational and cultural backgrounds. DENISE offers students a solid foundation in Dutch and English, in preparation for higher education in the Netherlands or abroad. English is an important world language and a lingua franca. It is the language of instruction in English class, building on students' knowledge of other languages and learning processes. As a language-friendly school, we encourage students to use their mother tongue in their language learning and celebrate diversity of accents. The English department maintains continuity and alignment across the various curricula and diploma programmes (Language, IMYC, Career, MAVO, HAVO, IB). The study of English language and literature prepares students to be open-minded thinkers and resilient problem solvers so they can function as responsible global citizens.

## Programma van Toetsing en Afsluiting - MAVO
