

Academic Integrity Policy

September 2023

Introduction

Academic integrity is a guiding principle and basic requirement for the production of authentic academic work. Academic integrity is a responsibility of the whole DENISE community: students, parents, school personnel and other stakeholders. With our student population coming from different cultural and national backgrounds, this policy aims to ensure a common understanding of the DENISE policy to create a teaching and learning culture of academic integrity within the whole school.

Why do we need academic integrity?

Academic integrity contributes to building a culture of *respect* (DENISE core value) within the DENISE community and supports learners' development into *caring* global citizens (another DENISE value).

DENISE assessments are designed to be fair to all students and give an accurate indication of a student's achievement. Academic misconduct or school maladministration disadvantages students who have complied with the assessment rules. Trust in the assessment process and credibility of the awarding of qualifications is essential.

Expectations

Academic integrity contributes to building a culture of respect (one of the DENISE core values) within the DENISE community and supports learners in developing into caring global citizens.

All DENISE students are personally accountable for:

- producing authentic individual and group work
- acknowledging the work and ideas of others by correctly attributing references
- using information technology, social media and Artificial Intelligence (AI) software responsibly
- adhering to assessment guidelines and examination regulations

Who is responsible?

The curriculum coordinators are responsible for the implementation of the standards in their program. They will ensure the mentors in their program give instructions to the students. Since students enter our school all the time throughout the school year mentors are responsible for instructing the new students. Besides mentors subject teachers are

expected to give task-specific instructions to students and to be familiar with the expectations per class. Both mentors and subject teachers can make use of the Academic Honesty iBook and the 'how to avoid plagiarism' form. We also expect a proactive approach from students. The Academic Honesty iBook is written in a student friendly way so students can practise referencing and familiarize themselves with the school rules quite independently. If they are not sure what to do they can always ask their teachers for advice.

Parents and Tutors

Parents and tutors can provide support to the student, but cannot do the work for them. As a parent please realise that teachers need to be able to assess the student's knowledge, skills and understanding. Academic misconduct mostly occurs when students feel under pressure. So in order to help them you can provide support with the scheduling of their work, as they may have many assignments to complete. You can also establish a good level of communication with the school so that you understand the expectations and you can encourage your son/daughter/pupil to ask their teachers for advice if they are struggling (Academic Honesty in the Diploma Programme)

Academic malpractice

Academic malpractice is behaviour that results in, or may result in, the candidate or any other candidate gaining an unfair advantage in one or more assessment components (IB Academic honesty – principles to practice). Some examples are plagiarism, copying another student's work or allowing one's work to be copied, taking unauthorized material into an exam, communicating or cheating during an exam, presenting the same work for different assessment tasks (Academic Honesty in the Diploma Programme). The consequences of academic malpractice are mild for students who just arrived in our school and more severe for those who have stayed for a longer period of time. When students enter DP1 consequences are so severe that they could not be promoted to the next grade or even lose their diploma. Therefore parents and students who start in DP1 receive a letter, indicating the importance of academic honesty in the IB and explaining the consequences of academic malpractice in the DP. Also for students taking a Dutch havo or mavo exam consequences of crossing the 10% plagiarism norm are severe. An overview of the consequences of academic malpractice per class can be found in Appendix 3.

Conclusion

The the academic honesty policy of DENISE is designed as an incremental one, running through the entire secondary school. It is our aim that students leave the school as rounded scholars, understanding the value of submitting their own work and in taking pride of what they are able to produce, whilst at the same times recognising others for what they have contributed (Academic integrity and the learner profile).

Checklist 9

- I can translate individual words with a dictionary or translation programs such as Google Translate

- I don't use Google Translate to translate full sentences

- I don't copy and paste sentences from the internet

- I can add a reference list to different types of assignments

- I can put the reference list in alphabetical order

- I understand my parents or tutors can help me but not do the work for me.

Checklist 10

- I can translate individual words with a dictionary or translation programs such as Google Translate

- I don't use Google Translate to translate full sentences

- I don't copy and paste sentences from the internet

- I can use sources which I summarise, paraphrase and quote

- I can write the sources underneath images.

- I can add a reference list to different types of assignments

- I can put the reference list in alphabetical order

- I understand my parents or tutors can help me but not do the work for me

Checklist 11

- I can translate individual words with a dictionary or translation programs such as Google Translate

- I don't use Google Translate to translate full sentences

- I don't copy and paste sentences from the internet

- I can use sources which I summarise, paraphrase and quote

- I can write the sources underneath images

- I can add a reference list to different types of assignments

- I can use sources which I quote or summarise in the text

- I can make an APA style reference list

- I understand my parents or tutors can help me but not do the work for me

CAREER CLASSES

Checklist 13

- I can translate individual words with a dictionary or translation programs such as Google Translate

- I don't use Google Translate to translate full sentences

- I don't copy and paste sentences from the internet

- I can use sources which I summarise, paraphrase and quote and reference them accordingly

- I can add a reference list to different types of assignments in APA style

- I can use the APA styleguide conventions.

- I understand my parents or tutors can help me but not do the work for me

- I know that more than 10% plagiarism means I cannot take my final exams

Checklist 14

- I can translate individual words with a dictionary or translation programs such as Google Translate

- I don't use Google Translate to translate full sentences

- I don't copy and paste sentences from the internet

- I can use sources which I summarise, paraphrase and quote and reference them accordingly

- I can write the sources underneath images

- I can add a reference list to different types of assignments

- I understand my parents or tutors can help me but not do the work for me

- I know that more than 10% plagiarism means I cannot take my final exams

Checklist 15

- I can translate individual words with a dictionary or translation programs such as Google Translate

- I don't use Google Translate to translate full sentences

- I don't copy and paste sentences from the internet

- I can attempt use sources which I summarise, paraphrase and quote and reference them accordingly

- I can write the sources underneath images

- I can add a reference list to different types of assignments

- I understand my parents or tutors can help me but not do the work for me

Checklist 16/17

- I can translate individual words with a dictionary or translation programs such as Google Translate

- I don't use Google Translate to translate full sentences

- I don't copy and paste sentences from the internet

- I can use sources which I summarise, paraphrase and quote and reference them accordingly

- I can add a reference list to different types of assignments in APA style

- I can use the APA styleguide conventions

- I understand my parents or tutors can help me but not do the work for me

Checklist 12

I can translate individual words with a dictionary or translation programs such as Google Translate

I don't use Google Translate to translate full sentences

I don't copy and paste sentences from the internet

I can use sources which I summarise, paraphrase and quote and reference them accordingly

I can add a reference list to different types of assignments in APA style

I can use the APA styleguide conventions

I understand my parents or tutors can help me but not do the work for me

Checklist DP1

I can translate individual words with a dictionary or translation programs such as Google Translate

I don't use Google Translate to translate full sentences

I don't copy and paste sentences from the internet

I can use sources which I summarise, paraphrase and quote and reference them accordingly

I can add a reference list to different types of assignments in APA style

I can use the APA styleguide conventions

I understand my parents or tutors can help me but not do the work for me

I know that plagiarism means I might not go to DP2

Checklist DP2

I can translate individual words with a dictionary or translation programs such as Google Translate

I don't use Google Translate to translate full sentences

I don't copy and paste sentences from the internet

I can use sources which I summarise, paraphrase and quote and reference them accordingly

I can add a reference list to different types of assignments in APA style

I can use the APA styleguide conventions

I understand my parents or tutors can help me but not do the work for me

I know that plagiarism means I cannot take my final exams

The bilingual academic honesty file, can also be found on the DENISE website.

Academic Honesty and APA

How do I avoid plagiarism?

At DENISE we encourage our students to be academically honest. This document is meant as a practical guideline for students and teachers.

In order to be academically honest, students will have to avoid plagiarism and other forms of academic misconduct, such as falsifying data. We therefore expect them to use APA style of referencing in every subject, at all times. APA stands for American Psychological Association and is a common style of referencing, especially in the social sciences. By including a bibliography and in-text citations in APA-style, plagiarism can be avoided.

A big help for students to make a bibliography are free online bibliography generators. On these websites (such as <http://www.citationmachine.net/>) students can click on APA-style, then determine if they want to cite a website, book, video or other source. After filling in the information about the author, title, date of publication etc. EasyBib will generate the APA citation for you. Very convenient!

Bibliography

A bibliography always has to be presented in alphabetical order. But what should the information in the bibliography look like? Here are some examples taken from the EasyBib website:

A book:

Author, F.M. (Year of Publication). *Title of work*. Publisher City, State: Publisher.

Example:

James, Henry. (2009). *The ambassadors*. Rockville, MD: Serenity Publishers.

A website:

Author, F.M. (Year, Month Date of publication). *Article title*. Retrieved on month day, year, from URL

Example:

Limer, E. (2013, October 1). *Heck yes! The first free wireless plan is finally here*. Retrieved January 23, 2012, from

<http://gizmodo.com/heck-yes-the-first-free-wireless-plan-is-finally-here-1429566597>

Note! Many sources have APA citation formats for their online versions (e.g., online newspapers, dictionaries and encyclopedias).

- Do you not know the date of publication? Use n.d.
- Does the article not have an author? Start with the organisation. Do you now know the organisation? Start with the title of the article.

A video on Youtube:

Last Name, F.M. [Username]. (Year, Month Date). *Title of video*. [Video File]. Retrieved on month day, year, from URL

Example:

[GEICO Insurance]. (2013, May 22). *GEICO hump day camel commercial – happier than a camel on Wednesday*. [Video File]. Retrieved January 23, 2002, from <http://youtu.be/kWBhP0EQ1IA>.

You can find those examples and many more on:

<http://www.easybib.com/guides/citation-guides/apa-format/>

In-text citation

On top of creating a Bibliography GR12 students at Denise are supposed to make use of in-text citations. All sources in the bibliography should be found in-text and vice versa.

An example of an **in-text citation** is:

Harlem had many artists and musicians in the late 1920s (Belafonte, 2008, p.18).

If the **author is already mentioned** in the text the citation just has to include the date. For example:

According to Belafonte, Harlem was full of artists and musicians in the late 1920s (2008, p.18).

If a work has **no author**, include the first few words of the bibliography entry (in many cases, the title and the year). For example:

The report includes some bleak results (Information Illiteracy in Academia, 2009).
Advice for the students: Always save all your sources during the process of doing research. It will save you a lot of time, because you may not be able to find them back easily!

Appendix 3

What happens with academic malpractice?

What happens with Academic Malpractice?	
General Approach	<p>First three months: subject teacher informs the mentor, who explains the rules once more. The student makes the assignment again.</p> <p>Longer than 3 months at DENISE: Always a notification in Magister. At first offence make the assignment again. In case of repetition grade is a 1 + comment on the report card. In severe cases the curriculum coordinator arranges a meeting with the parents.</p>
Exam Classes (13h and 14m)	If plagiarism is above the 10%-norm a student cannot take the exams.
Group 12 and DP1	<p>First month: subject teacher informs the mentor, who explains the rules once more. The student makes the assignment again.</p> <p>Longer than 1 month at DENISE: Always a notification in Magister. At first offence make the assignment again. In case of repetition grade is a 1 + comment on the report card. The DP coordinator sends a letter to the parents explaining the importance of academic honesty in the Diploma Programme. In extreme cases the parents will be invited for a meeting and the admission from group 12 to DP1 or from DP 1 to DP2 could be in danger.</p>
DP 2	Punishments are at the discretion of the DP coordinator and the head of upper school. This includes informing the IB of the offence, suspension from school and removal from external examinations. If a student is guilty of malpractice during an external examination, the school is obliged to inform the IB authorities and await their ruling on the matter.
